Fibbersley Foundry, Willenhall

Client: Frank Allart & Co

Date: 2009

Daniel Hurd Associates were commissioned by the owner of a redundant foundry to examine new uses for the site, and working with planning consultant CSJ Brookesmith, a scheme for residential redevelopment was prepared.

The consented scheme achieves 10 detached and semi-detached 3 and 4 bedroom houses, set around a new access cul-de-sac. The scheme was subject to much design development to ensure a layout which respected the street scene along Fibbersley, as well as addressing the nature rerserve to the north and west of the site.

All houses are designed to achieve Code For Sustainable Homes Level 3.
